

Marking Schema

Marking for the essay is done in 5 sections and each section has specific points as shown below - totally to 100 points, which is then weighted accordingly to form the mark for the coursework.

These sections are:

Sections
C1: Clear description of algorithms used (30 points) The algorithm is clear and understandable. The mathematical symbols are well used, and technical details are self-contained.
C2: Performance on the dataset (10 points) Decent performance is expected.
C3: Clear MATLAB or Python code (15 points) The code is well commented and organized. It is easy to read and understand.
C4: Discussion of the results (25 points) Extensive discussion are included in the report in terms of the testing results and the robustness of the algorithm.
C5: Clear illustration of network design and implementation (20 points)

Section	None	Unacceptable	Poor	Fair	Good	Excellent
C1	(0 point) Not attempt	(6 points) The description is not structured and incorrect	(12 points) The description is somehow structured and correct	(15 points) The description is structured and correct	(21 points) The description is structured clearly and correct	(30 points) The description is 'Good' with an exceptional amount of effort
C2	(0 point) Not attempt	(2 points) Lower than random selecting	(4 points) Better than random selecting	(5 points) Close to the baseline*	(7 points) In line with the baseline*	(10 points) Above the baseline*
C3	(0 point) Not attempt	(3 points) Unreadable code without any comment	(6 points) Unreadable code with few comments	(8 points) Readable code with enough comments	(11 points) The code is not only readable but also easy to reuse	(15 points) Perfect code with exceptional amount of effort
C4	(0 point) Not attempt	(5 points) No discussion	(10 points) Minimal discussion	(13 points) Some meaningful discussion is	(18 points) Insightful discussion based on	(25 points) Perfect discussion with exceptional

				provided	theory and experiments	amount of effort
C5	(0 point) Not attempt	(4 points) No explanation	(8 points) Some explanation	(10 points) Some explanation and illustrations	(14 points) Good explanation and illustration	(20 points) Perfect explanation and discussion
